Extended Syllabus
(2023 2nd Semester)

Course Title	Research Ethics	Course Number	GRA0000-02
Credit	0	Enrollment Eligibility	Graduate Students
Class Time	Online Class	Classroom	Online Class

Ⅰ. Course Overview

•Description

- The goal of this subject is for students to know the meaning and importance of research ethics and learn how to write papers that comply with research ethics. The content of the subject is about the social responsibility of researchers, the definition and concept of research ethics, appropriate citation methods of data, various types of research misconduct, and proper management, analysis, and interpretation of research data. Through this subject, students will be able to develop their knowledge and competency as responsible researchers, and research ethical value judgment.

•Prerequisites

- This course is a course that the master's and doctor's courses take together. It is not necessary to study lectures in other subjects, but it can be helpful to take this lecture after taking research methodology and thesis writing methods.
